Artificial intelligence

Hello! Welcome to AI club, I'm Byte!

A Nostalgic and Awesome Year

This year we will....

01

Learn AI Theory

02

Discuss risks in AI

03

Build an AI Agent

04

Collaborate with other clubs

Possible extras: Guest speakers and a hackathon

AI hot takes

AGREE

UNSURE

DISAGREE

Choose a side: move or raise your hand.

01 “AI-generated art is real art.”

02 “Schools should allow AI on assignments if students explain how they used it.”

Prompt challenge: make AI explain better

BATTLE ROUND

3 MINUTES | TEAMS OF 3–4 | PAPER ONLY

Get AI to explain “how a chatbot works”

BASELINE AI ANSWER

“A chatbot is a computer program that reads your message and predicts a reply based on patterns it learned from lots of examples.”

AUDIENCE

A Grade 9 student

LENGTH

Under 80 words

ANALOGY

Use a school-life analogy

JUDGING

Clarity, then accuracy, then creativity

Help and Guidance
